TENDING OPERATIONS AND OBSERVATIONS OF INTEREST
(Period to Attainment of Thinning Stage)

Year	REMARKS
1968	Well stocked.
1983	10 - 12 m with reasonable form & healthy appearance.
7/87	Lightly thinned.
12/87	Abies veitchii. A good healthy plot, should be opened up to retain green foliage down to eye level. No merit in "pole stage" A.veitchii, it is very much a foliage plant. Sanwa Trading Co.Japan.
