

Record of periodical measurements

Site Plot Form No.7

Plot No. 114 Area 0.02 hectare Species LP New Westminster Thinning Treatment

Location MAIN CROP (after thinning) YIELD FROM THINNINGS TOTAL CROP Yield to date

Year of measurement	Age of crop Years	No. of trees per hectare after thinning	Height		Diam at 1.3m		Basal area per ha after thinning m ²	Form Height	Volume per ha (over bark) m ³	Crown %	Bark %	No. of trees per ha	Av. Diam. at 1.3 m cm	Basal area per ha m ²	Volume per ha (over bark) m ³	Basal area per ha m ²	Volume per ha (over bark) m ³	Periodic Annual Increment		Mean Annual Increment per ha (over bark) m ³	Entered and checked
			Average of 100/ha crop m	Average of 100/ha crop m	Average of 100/ha crop m	Average of 100/ha crop m												Basal Area m ²	Volume (over bark) m ³		
3/82		52					30.36									30.36		1.60			
1/83		52					31.99									31.99		0.78			
10/83		52					32.78									32.78		0.78			
4/85		52					33.95									33.95		1.17			
1/86		52					34.81									34.81		0.86			
4/87		52					36.19									36.19		1.38			
1/88		52					36.97									36.97		0.78			
2/89		52					37.37									37.37		0.40			
11/89		36					33.70					16		?							
9/90		36					34.10												0.40		
9/95		37					38.34												0.85
