

9th February 1968

- Plot No. 1 - *Pseudotsuga Taxifolia* - P. 57 - B.U. F.Y. 58  
a good plot established 20' height.
- Plot No. 2 - *Larix Decidua* - P. 60  
Uneven sized plot height between 8' and 25' - Full stocking.
- Plot No. 3 - ~~*Larix Siberica*~~ - P. 59 - B.U. F.Y. 60, 61 - Manured F.Y. 63  
Plot has completely failed. *Picea Engelmannia* 400 plants 69
- Plot No. 4 - *Tsuga Heterophylla* - P. 57  
Good average height 25' - Established.
- Plot No. 5 - *Tsuga Warteniana* - P. 57 - B.U. F.Y. 60, 61, 62, 63 and Manured F.Y. 63  
~~*W. 61/62*~~ ~~*Stock*~~ ~~*Manured*~~  
Poor plot only half stocked - average height 3'.
- Plot No. 6 - *Chamaecyparis Lawsoniana* - P. 57 - B.U. F.Y. 58, 59  
Good established plot average height 20' - Some vole damage around butts.
- Plot No. 7 - *Thuja Plicata* - P. 59 - B.U. F.Y. 60, 61.  
Good established plot average height 15' - No sign of *Keithia*.
- Plot No. 8 - *Abies Frazeria* - P. 61 - B.U. F.Y. 62 - Manured F.Y. 63  
Poor plot very slow growth - 40% stocked - Average height 18"  
~~*W. 61/62*~~ ~~*Stock*~~ ~~*Manured*~~  
~~*W. 61/62*~~ ~~*Stock*~~ ~~*Manured*~~
- Plot No. 9 - *Cupressus Macrocarpa* - P. 58 - B.U. F.Y. 61 - Manured F.Y. 63  
Some good individual trees up to 18' high - half stocked - some trees have been staked for windblow.
- Plot No. 10 - *Sequoiadendron Giganteum* - P. 59 - B.U. F.Y. 60, 61  
Poor plot only a few plants left - average height 8' but some 2'.
- Plot No. 11 - *Sequoia Sempervirens* - P. 58 - B.U. F.Y. 59  
Only half stocked - average height 10' - Trees have bushy form and multi leaders.
- Plot No. 12 - *Cedrus Libiana* - P. 58 *Pinus g/athosa* 300 plants 69  
Complete failure.
- Plot No. 13 - *Cedrus Deodara* - P. 58 - B.U. F.Y. 59 B.U. 60  
Three-quarters stocked - trees bushy - height between 4' - 8'.
- Plot No. 14 - *Picea Abies* - P. 57 - B.U. F.Y. 58  
Good plot - established - average height 8'.
- Plot No. 15 - *Abies koreana* - P. 61 - Manured F.Y. 63  
Very few trees - almost failed - 18" trees. } 180 *Larix occid. folia*  
Planted 68
- Plot No. 16 - *Abies Grandis* - P. 57 - B.U. F.Y. 58, 59.  
Good established plot - nice firm plants - height 7'.
- Plot No. 17 - *Abies procera* - P. 57 - B.U. F.Y. 58, 59.  
Fully stocked - 8-9' high.
- Plot No. 18 - *Abies Cephalonica* - P. 57 - B.U. F.Y. 58, 60.  
~~*W. 61/62*~~ ~~*Stock*~~ ~~*Manured*~~  
Full stocking - 4-6' high - North quarter of plot bare.
- Plot No. 19 - *Abies Nordmandiana* - P. 58  
Slow growing but sturdy plants - height 3-4' - Wet piece in middle.
- Plot No. 20 - *Abies Concolor* - P. 58 - B.U. F.Y. 61, 62 - Manured F.Y. 63 B.U. 60  
Slow growing - sturdy plants - height 3' - well stocked.
- Plot No. 21 - *Abies Veitchii* - P. 58 - B.U. F.Y. 63 and Manured B.U. 60  
Similar to plot 20 - but slightly smaller plants - Well stocked.
- Plot No. 22 - *Abies Lowiana* - P. 58 - B.U. F.Y. 63  
Good full stocked plot - 5' high.

EUC  
101

- Plot No.23 - Abies Homolepis - P.59 - B.U. F.Y.60, 61, 62, 63 and Manured  
Good well stocked plot - Slow growing 3' high - Wet patch in middle.
- Plot No.24 - Abies Amabilis - P.59 - B.U. F.Y.60  
Only a third stocked - Good trees with bushy leaders appears to  
have been frosted - 2-3' high.
- Plot No.25 - Abies Delavayi - P.59 - B.U. F.Y.60, 63 and Manured <sup>60</sup> *Cunninghamia*  
<sup>18</sup> *anceolata* planted in  
Poor plot 8-9 trees leader died back and Sheep damage in past.
- Plot No.26 - Pinus Nigra Var Pullaunia - P.60 - B.U. F.Y.61 - Manured F.Y.63  
Wet molinia site only quarter stocked - average height 2'
- Plot No.27 - Pinus Nigra Var Austriaca - P.60 - B.U. F.Y.61, 62, 63 and Manured  
Plot half molinia half bracken - Molinia site half stocked at 2' high  
Bracken three-quarters stocked at 4' high.
- Plot No.28 - Pinus Muricata - P.60  
Good plot almost fully stocked - height 10'.
- Plot No.29 - Pinus Stobus - P.59 - B.U. F.Y.60, 61, 62.  
Fully stocked and established - 6-7' high - bad patch on North side  
in Molinia.
- <sup>Pinus</sup> Plot No.30 - Pinus Fesinosa - P.60 - Manured F.Y.63  
<sup>at</sup> Poor plot - few trees - poor growth - 2' high.
- Plot No.31 - Pinus Rostrata - P.60 - Manured F.Y.63  
Bushy slow growing plants - 2' high - three-quarters stocking.
- Plot No.32 - Pinus Thumbergi - P.60 - B.U. F.Y.62, 63 and Manured  
Three-quarters stocked - small slow growing trees - Candle type  
winter birch.
- Plot No.33 - Quercus Petraea - P.57 - B.U. F.Y.59  
Fully stocked and established - Bushy form.
- Plot No.34 - Quercus Robur - P.57 - B.U. F.Y.59  
Good plot fully stocked and established - 10-12' high.
- Plot No.35 - Quercus Borealis - P.57 - B.U. F.Y.59  
Established plot - poor in wet patch - height 8'.
- Plot No.36 - Tilia Cordata - P.59 - B.U. F.Y.62 - Manured F.Y.63  
Die back of leader - no growth - height 12-18" - Half stocked.
- Plot No.37 - Northofagus Obliqua - P.57  
Fully stocked and established - bushy form - 18' high.
- <sup>Pinus</sup> Plot No.38 - Fagus Sylvatica - P.57  
<sup>in</sup> Fully stocked and established - 8' high.
- Plot No.39 - Pinus densiflora - P.59  
Bushy tree - half stocking - slow growing - 4' high.
- Plot No.40 - Pinus Peuke - P.59 - B.U. F.Y.62  
Branches droop - needles stick out - Fully stocked except for wet  
bottom corner.
- Plot No.41 - Pinus Fungens - P.59 - B.U. F.Y.60, 61, 62  
Poor growth - few plants left - 3' high.
- Plot No.42 - Pinus Penderosa - P.57 - B.U. F.Y.58, 59, 63.  
Top of plot not planted - bottom of plot three-quarters stocking -  
height 6'.
- Plot No.43 - Original planting - Pinus Attenuata - P.60 - B.U. F.Y.62 - Failed.  
Replanted - Picea Asperata - P.63 and Manures - B.U. F.Y.66 - only  
~~half~~ <sup>Plot</sup> planted - Fully stocked - 18" high. <sup>The</sup> <sup>older</sup> <sup>half</sup> <sup>has</sup> <sup>52</sup> <sup>than</sup>  
<sup>Thyrids</sup> <sup>planted</sup> <sup>69</sup>
- Plot No.44 - Pinus Banksiana - P.57 - B.U. F.Y.59  
Fully stocked and established - Average height 15'.

- Plot No. 45 - Pinus Mugo - P. 59 - B.U. F.Y. 60, 66.  
Bushy form - fully stocked now - height 3'.
- Plot No. 46 † Pinus Mugo Var Pumilo - P. 57 - B.U. F.Y. 58  
Almost fully stocked - height 3' - Bushy type tree.
- Plot No. 47 - Pinus Contorta - P. 57 - B.U. F.Y. 58  
Fully stocked and established - 20' high.
- Plot No. 48 - Pinus Radiata - P. 57 - B.U. F.Y. 61 - Replanted F.Y. 61  
Original 15 plants survived - 5 at 5' and 10 at 15'.
- Plot No. 49 - Pinus Jeffreyi - P. 57 - B.U. F.Y. 59  
Triangular shaped plot - three-quarters stocking - 4-5' high -  
slow growth.
- Plot No. 50 - Cryptomaria Japonica - P. 57 - B.U. F.Y. 58, 59.  
Half of plot cut out by new road - rest fully stocked and established -  
height 12'.
- Plot No. 51 - Picea Glauca - P. 57 - B.U. F.Y. 58, 59.  
Roadline caused plot to be unrecorded but half plot is fully stocked  
and established.
- Plot No. 52 - Picea Engelmannii - P. 57 - B.U. F.Y. 58, 59.  
Road obliterated plot.
- Plot No. 53 - Picea jezoensis - P. 57 - B.U. F.Y. 59.  
Good growth on trees that are left by roadline.
- Plot No. 54 - Picea Orientalis - P. 57 - B.U. F.Y. 58, 59, 61, 62 - Manured F.Y. 63  
Plants at bottom of plot in molinia have failed but on the slope 3'  
high.
- Plot No. 55 - <sup>Ginkgo</sup>Ginco Bilboa - P. 59 - Replanted Picea Rubens P. 63-Manured  
Poor growth - fully stocked - height 2'.
- Plot No. 56 - Picea Omorika - P. 59 - B.U. F.Y. 60, 61 - Manured F.Y. 63  
Poor patch in bottom - rest good - 4' high - fully stocked.
- Plot No. 57 - Picea Mariana - P. 60 - B.U. F.Y. 61, 62, 63 and Manured  
Established - full stocking - 5' high.
- Plot No. 58 - Picea Smithiana - P. 59 - B.U. F.Y. 60, 61, 63 and Manured  
Failed.  
Special Tree planted in F.Y. 58 - Ginco - still just alive.
- Plot No. 59 - Abies lasiocarpa - P. 60 - Manured F.Y. 63  
Two-thirds stocking - poor growth - 9-24" high.
- Plot No. 60 - Abies Balsamiae - P. 60 - B.U. F.Y. 61, 63 and Manured  
Few trees - needle cast and dead leaders.
- Plot No. 61 - Acer Pentalanica - P. 60 - B.U. F.Y. 61, 63.  
Good Plot - 90% stocked - 10' high.
- Plot No. 62 - Ulmus Glabra - P. 60 - B.U. F.Y. 61.  
Almost full stocking - very poor growth - 3' high.
- Plot No. 63 - <sup>Prunella</sup>Quercus Merkeckii - P. 59  
Poor shape - fully stocked - 6' high.
- Plot No. 64 - <sup>Saccarhina</sup>Acer Saccharina - P. 59  
Good growth - fully stocked and established - 10' high.
- Plot No. 65 - Quercus Lusitanica - P. 59 - B.U. F.Y. 60  
Fully stocked and established - 8' high - wet patch in middle.
- Plot No. 66 - <sup>Quercus cerris</sup>Quercus Censis - P. 58  
Wet patch at bottom - established - 8' high.
- Plot No. 67 - Acer Psuedoplatinus - P. 57 - B.U. F.Y. 58  
Full stocking - 2-3' high.

- Plot No. 68 - Acer Platenoïdes - P. 57 - B.U. F.Y. 58  
Good plot - fully stocked and established - 7-8' high.
- Plot No. 69 - Populus <sup>trichocarpa</sup> - P. 61 - Limed F.Y. 63  
Original plants 15' - B.U.s 4-5' high.
- Plot No. 70 - Tilia Cordata - P. 59  
Almost full stocking - poor growth - height 3'.  
~~Liriodendron~~
- Plot No. 71 - Liriodendron Tulipifera - P. 59  
Almost fully stocked - growth better than Plot 70 - Height 4-5'.
- Plot No. 72 - Castanea Sativa - P. 57 - B.U. F.Y. 58, 62.  
Three-quarters stocking - height 4-5'.
- Plot No. 73 - Aesculus Hippocastanum - P. 58 - B.U. F.Y. 62 - Manured F.Y. 63  
Poor plot height 1-2' - half stocked - leading shoot die-back then side shoots take over and leading shoot dies back again.
- Plot No. 74 - Populus Trichocarpa - P. 61 - Limed F.Y. 63.  
Height 15-20' - original plants doing well.
- Plot No. 75 - Picea Koyamai - P. 61 - Manured F.Y. 63  
Plot has now started to grow - leading shoots have got away - almost full stocking - height 3'.
- Plot No. 76 - Juglans Regia - P. 60/61 - Manured F.Y. 63  
Half stocked - poor plot - leading shoot dies - poor growth.
- Plot No. 77 - Tilia Platyphyllos - P. 59 - B.U. F.Y. 61  
3-4 trees left about 2' - Failed.
- Plot No. 78 - <sup>1</sup>Devisia Vilmoriana - P. 58  
Failed.
- Plot No. 79 - Robinia Pseudocacia - P. 57 - B.U. F.Y. 58, 66.  
Those plants which are alive seem to be losing their bark - height 1' - 12' - Not quite half stocked.
- Plot No. 80 - Populus Robusta - P. 61 - Limed F.Y. 63  
Good plot - Three-quarters stocked - height 6'.
- Plot No. 81 - <sup>1</sup>Populus Seritina - P. 61 - Limed F.Y. 63 - B.U. F.Y. 66  
Good plot - Three-quarters stocked - height 16'  
Badly frosted plot - three-quarters stocked - 1-4' high.
- Plot No. 83 - Betula Pendula - P. 59  
Half stocked - height 2-6'.
- Plot No. 84 - Stranversia Dividii - P. 57  
Plot growing well in bracken area - poor in grass corner - three-quarters stocked - bushes - 8' high.
- Plot No. 85 - Betula Alba - P. 61  
Plants 6' high - Full stocking.
- Plot No. 86 - Alnus Oregona - P. 59  
Fully stocked plot - height 10'.
- Plot No. 87 - Betula Mildenhall - P. 59  
Great variation in height average 6' - three-quarters stocked.
- Plot No. 88 - Betula Maximowiczii - P. 57  
Established Plot - Good growth - 8-9' high.
- Plot No. 89 - Betula Lenta  
Only middle of plot stocked - Top and Bottom failed  
Height 3-4' - Half stocked.
